North Bay, ON. July 27, 2016 – Leading employer groups and the North Bay & District Chamber of Commerce are calling on the Government of Ontario to reject several proposals under consideration in the Interim Report of the Ontario Government’s Changing Workplaces Review. Following the release of the report today, Ontario’s business community is concerned that many of the policy options under consideration by the Special Advisors could have a profound impact on the relationship between employers and employees in every workplace in Ontario, including the Nipissing Region.

Ontario’s Ministry of Labour is currently undertaking a review of the Labour Relations Act and the Employment Standards Act through its Changing Workplaces Review. The Review has been tasked with examining key workplace trends, including the increase in non-standard working relationships such as temporary jobs, involuntary part-time work, and self-employment. Keep Ontario Working is an initiative of the leading employer and sector associations in the province, who are working together to motivate employers and employees alike to take a more active interest in the Changing Workplaces Review.

“At a time when the costs to consumers and the cost of doing business in Ontario is rising, government must consider the impact that these changes will have on Ontario’s competitiveness and workers,” said Jake Lacourse, President of the North Bay & District Chamber of Commerce. “Any changes to labour and employment legislation will have implications for Ontario’s economy, and that’s why it’s time for all Ontarians to identify barriers to growth and recommend changes that will give businesses and their workers room to grow.”

The interim report of the Special Advisors is a large document that contains hundreds of options to the legislation that guides Ontario’s workplaces. The options laid out and that are presently being considered by the Special Advisors will impact nearly every aspect of the relationship between employers and employees, as well as the ability of Ontario businesses to create jobs and grow the economy.

“The North Bay and area employer community acknowledges that work is changing and that employees need to be protected,” said Jake Lacourse, President of the North Bay & District Chamber of Commerce. “However, in an effort to solve one problem, we don’t want to impose more issues. One-size-fits-all solutions, like many outlined in the interim report, could remove the flexibility that many of Ontario’s employers and employees enjoy. We deserve evidence-based policy and the Government of Ontario should conduct a cost-benefit analysis to assess the impact on jobs and the economy for any changes to labour and employment legislation that they accept from the Changing Workplaces Review.”

In particular, Keep Ontario Working will focus on several policy options in the interim report that the government is considering, including:

- **Labour Certification Rules:** The requirement for a secret ballot vote must be maintained. Certification simply by signing a union card diminishes employees’ rights and transparency.

- **Scheduling Provisions:** Options that would create rigid and universal requirements and a one-size-fits-all approach to scheduling fail to recognize the diverse needs of Ontario’s workforce.

- **Sector Exemptions:** The interim report includes options that would provide for changes to sectoral exemptions. Doing so would ignore the unique needs of important industries like agriculture and information technology when it comes to flexible scheduling and compensation.

In addition, a critical first step in improving workplaces for Ontarians is increased education and...continued on page 2

North Bay & District Chamber of Commerce Calls On the Provincial Government To Push Broadband Strategy Into High Speed

North Bay, ON, JULY 21st, 2016: Today, the Ontario Chamber of Commerce (OCC) has called on Premier Kathleen Wynne to commit dedicated provincial infrastructure funds to developing and expanding broadband internet access in remote and rural areas of the province. With record investments being made by government in transit and transportation infrastructure, the business advocacy organization is calling upon the provincial government to recognize, through infrastructure dollars, that access to high speed internet is also essential for Ontario businesses to compete in the 21st century global economy.

“Local businesses in North Bay and the region are becoming increasingly dependent on internet access for their everyday business practices,” said Jake Lacourse, President. “High-speed internet access has become a necessity for doing business in today’s economy and it is critical that all regions across Ontario have access to this essential infrastructure.”

While the NBDCC and the OCC acknowledge broadband investments made by the Government of Canada in the recent federal budget, internet access continues to be an issue in parts of Ontario. The letter to the Premier identifies three key recommendations that the Ontario government should address in the coming term to ensure all communities in the province are able to compete in the global economy:

- Develop a robust broadband investment strategy that acknowledges that broadband is an essential infrastructure investment, and creates space for continued private-sector investment.
- Build partnerships across all levels of government in order to leverage funding and respond to local need. Recognizing that the private sector has driven investment in broadband infrastructure, the OCC recommends an intergovernmental funds matching formula that will continue to incentivize large private sector investments.
- Benchmark Ontario’s internet speeds and access. In order to ensure Ontario is able to compete in a technology-driven global economy, we need to create broadband infrastructure that is equal with those of other globally-competitive jurisdictions.

“Just as businesses depend on roads and electricity, high-speed Internet is fundamental to advancing the province’s economic interests,” said Allan O’Dette, CEO & President of the OCC. “Committing funds to broadband infrastructure in rural and remote regions of the province will ensure that economic fragmentation is reduced in Ontario.”

With government services increasingly shifting to online platforms, universal access to high speed internet is becoming more important than ever. By working with the region’s business community as well as the Ontario business community, government can develop broadband policy that is responsive to existing needs while not dissuading private sector investment.

Problem-solving, teamwork, games, tours, and of course, SKILLED TRADES & TECHNOLOGIES!

The Young Professionals

Check out our Young Professional of the month, Janelle St-Denis!

Janelle St-Denis
Program Coordinator, The Business Centre Nipissing Parry Sound

Janelle is one of 8 children raised on a hobby farm in the small town of River Valley. She studied Social Work at Laurentian University and graduated from the Child and Youth Worker Program at Collège Boréal in Sudbury in 2013. She moved to North Bay looking for something new and exciting.

Janelle discovered a new passion at The Business Centre Nipissing Parry Sound where she initially joined the team as program coordinator of the Aboriginal Youth Entrepreneurship program. She now brings her amazing organization and customer service skills to her position of Office Coordinator, working closely with the team to deliver workshop, plan events, offer client consultations, complete research and provide resources to clients. Janelle truly enjoys her role, especially working with entrepreneurs and assisting them to start or expand their business.

Janelle hopes to continue living in North Bay and take advantage of the beautiful waterfront and bike trails that the city has to offer.

Booth Landing Camping & Cottages

Booth Landing has been a vacation destination since the mid 1940s. Nunzio and Cindy Scarfone purchased this rustic and tranquil location in 2000. They have since updated the cottages and added seasonal and overnight campsites. In April of this year, they became members of our Chamber.

At Booth Landing you, your kids and pet will experience northern wilderness in the midst of 45 acres of mature forest, set on the northeast shores of Wasi Lake. This peaceful, quiet lake offers plenty of fishing opportunities and wildlife sightings and sounds. You can rent motor boats, canoe or kayaks or bring your own boat. You are also able to take advantage of the site’s 2000 feet of shoreline, including a sandy beach and a dock area, and to hike on its nature trail.

Golfers can enjoy three nearby golf courses, while logging roads and the old Algonquin rail bed offer beautiful and historical vistas for ATV enthusiasts.

Booth Landing is located 30 km southeast of North Bay at 437 Golf Course Road in Chisholm Township. All cottages have two bedrooms and are situated along the water’s edge. The campsites are spacious and equipped with hydro and potable water.

Visit [http://www.boothlanding.com](http://www.boothlanding.com) for more information.

---

Digsafe Contracting

A father and son company that started back in 2013, but with over 25 years combined experience, is a year ‘round company that can handle almost any construction or contracting job that requires professional equipment operators at competitive prices.

This is the busy summer season with the nice weather having arrived. Whether you are thinking about a new septic, have water in your basement, digging a pond, or need a new basement call the experts today. We also do waterlines, water mains, sewer pipes, landscaping, top soil, line painting, retaining walls, road building, demolition, clearing lots, service lots, septic systems, dig for new house construction, sweeping parking lots and roads, install hydro poles and under ground hydro, install under ground gas lines, install man hole, raise and lower man holes, etc. Anything you need we can handle. No job too small or too big.

Winter season is also busy with frozen pipes, snow maintenance, plowing, sanding and salting.

Check out our facebook page by clicking [HERE](http://www.facebook.com). Call Corey at 705-845-5410 or Ken at 705-845-5089 to book a free quote today, all work guaranteed.
**Genesis@204**

North Bay Business Incubator, is a place where entrepreneurs can run their office or retail business, learn how to navigate the business world, network with other entrepreneurs and be supported every step of the way.

With an onsite project manager, community partners and experts available for support, members have access to more than just reasonable rates without a long term lease.

With funding from the Ontario Trillium Foundation, FedNor, NOHFC and other partners, the Business Loft and The Boutiques officially opened its doors April 17, 2015 as the Genesis@204 pilot, a project of the North Bay and District Multicultural Centre.

The lower level hosts the Boutiques, a space for retail businesses to set up shop in a downtown location. Upstairs is the Business Loft, where entrepreneurs can rent private and semi-private offices.

The Boutiques and Business Loft are for more than just start-ups and can adapt to suit your needs. We now offer Daily and 6-Pack passes in addition to boardroom rentals and our traditional full membership.

Are you looking for an office for the day? A retail market for a weekend? Let us know! Find us online at [genesis@204.com](mailto:genesis@204.com), on Facebook and Twitter and let us know how we can help you.
