

## Building Community

Play4Prosperity is focused on helping communities use the latest techniques in innovation and creativity to find a clear path to their goals and aspirations.

We are proud to sponsor BRICKS for HOSPICE, using the method of LEGO® SERIOUS PLAY® to raise funds for the HOSPICE Children’s Playroom. Join our team of skilled SERIOUS PLAY® facilitators as they use the power of play to reach and teach with LEGO® bricks.

Our goal is to engage our young people through play and raise their awareness to the difference we can all make when we get involved in our communities.

**Having a community worth getting involved in, means getting involved**
