Special offer by our friends at Pure North Medical (New Ontario Brewery) for Chamber Members only! **15% off your Hand Sanitizer order, if you order online.**

Email Patti at from the Chamber office at patricia@nbdcc.ca for the special code. She will send you the link to order online and the code!

New Ontario Brewing is bringing in a limited quantity of dispensers

We're bringing in automatic dispensers to install in local businesses and restaurants. The estimated time is 28 days to get them in. We are putting this out first to our Chamber customers. There is no cost for the hand sanitizer units to be brought in and installed with the purchase of either one 20L pail or 4 x 4L jugs of our sanitizer. We are willing to install multiple units per location as needed for larger spaces. We have a limited number of units being manufactured and we are now accepting pre-orders with a \$20 deposit / unit which will be credited towards their first purchase of sanitizer.

Members are encouraged to [CLICK HERE TO ORDER](#) to reserve the units and setup times for installation. The unit is pictured above.

North Bay Employers, as we begin to think about re-opening and returning to our workplaces, I would like to gift you with support.

You have enough on your plate without worrying about HR Policies. The Ministry of Labour will be checking to see how employers are keeping their teams safe, how they are maintaining physical distancing, that infection control is in place and above all, that you are ensuring your team is trained and understands their responsibilities.

Please visit my website and let me know how I can help. Free to you from EME Innovations.

Keeping your team connected remotely:

The COVID-19 crisis has reshaped the way every business runs its operations. We all have to adapt to the new ways we are communicating and collaborating with our colleagues, business partners and clients. Now more than ever, an adaptable business is a thriving business.

Remote work has become part of the new normal. Even after the crisis, a remote workforce can bring many benefits to your bottom line and your employees. To be effective, it is crucial to assess your business's technological needs, and ensure that your employees have everything they need to meet their objectives remotely.

As your local technology partner and member of the Chamber of Commerce, we would be happy to support all our co-members with

secure, reliable remote work tools to keep everyone on your team productive.

Audio conferencing and unified communications solutions:

Our remote work tools include audio conferencing services that let you collaborate with your entire team by hosting up to 100 participants at a time.

Additionally, our unified voice communications makes it easy for you to stay connected with your coworkers at any time, anywhere with user-friendly messaging, mobile and meeting features.

This means you can hold video conferences on both mobile devices and computers. You can also remotely access your email or phone to check voicemail messages and faxes. On top of all that, you get automated call answering services and call distribution.

With no on-site installation required, we'll get your equipment up and running smoothly while keeping your employees safe. Remember, we are in this together and we're here to help you stay connected.

Click here to learn more about our remote working business solutions.
